

HOW TO....

Incorrect Keyboard Language

1

Problem:

Your keyboard is typing the wrong symbols e.g.

instead of £

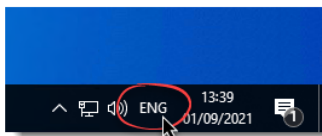

@ instead of "

2

Solution:

Down the bottom right corner of your screen you should see an icon titled ENG as shown circled in red in example screenshot.

Click on ENG to display a menu.

3

The menu will appear as shown in example screenshot.

I suspect you will find that English (United States) is highlighted.

Click on English (United Kingdom) and your keyboard will now function correctly again.
